PROPOSALS

For Publishing, by Subscription,

THE COMPLETE WORKS OF

SIR WALTER SCOTT:

With a Biography: being the first American (and only) edition which contains the Author's last additions and illustrations, arranged upon their respective pages.

A COMPLETE and uniform edition of the various productions of the great 'Minstrel of the North,' is a *desideratum* with the American public. No library is complete without them, and no edition extant is sufficiently compact for such a repository; while the endless number of editions, *without any uniformity in size,* heretofore published, besides being exceedingly cumbrous, are far too voluminous and expensive to be within the reach of the great majority of readers. The undersigned therefore announce, that they have now in press, and will issue, an edition of the Works of Sir Walter Scott, which will embrace all his Poems, Novels, Histories, Biographies, and Fugitive Compositions, as well as the Biography and Private Correspondence, now in the course of publication in England, under the superintendence of Mr. Lockhart.

1st. In Parts: each Part embracing as much matter as is contained in two volumes of the present editions of the Waverley Novels, which will be put at the unprecedented low price of THIRTY SEVEN AND A HALF CENTS.

2d. Two parts will appear each month; but should the publishers find the work to meet the patronage they anticipate, FOUR PARTS will be issued monthly.

3d. The whole will be completed in *seven volumes,* or *forty eight parts.*

The paper on which the above is now printing, has been made expressly for the purpose; the present parts may, therefore, be considered a fair specimen, in every respect, of the whole work; but, should dissatisfaction arise with any subscriber, owing to an inferior article being offered, he may discontinue at any time, and have the amount paid returned.

Note.—The publication of the first volume is deferred until the receipt of the Biography, Private Correspondence, and the New Edition of the Author's Poetical Works, with 'contemporary criticism—various readings—and correspondence with some of the most eminent persons of the time when the Poems first appeared,' now in the course of publication in England.

Volume I will be ornamented with an excellent Portrait of Sir Walter Scott.

DAILY PITTSBURGH GAZETTE.

SATURDAY AFTERNOON, OCT. 26, 1833.

The following paragraph is from the Philadelphia Commercial Herald, of Wednesday last:—

"*Philadelphia Board of Trade.*—An unusually large meeting of merchants was held last evening, at the Franklin Institute—Thomas P. Cope in the chair, and Thomas C. Rockhill, Secretary. An election for officers was gone into, the result of which we will publish to morrow."

We know precisely the objects of this Board of Trade—at a previous meeting, however, we observed, that an association was to be formed, "by which the commercial and trading community of that city might be enabled to act with united effort on all subjects relating to their interests."—All internal improvements, which tend to extend the trade and commerce of Philadelphia, and to counteract the enterprizing schemes of the New Yorkers, will probably come within the range of the operations of this association. With these impressions as to the purposes for which this association was formed, we read, with much pleasure, the above notice.—The formation of this Board, by the appointment of particular persons to carry on correspondence, and to collect information, will be highly useful.

It is manifest, to every person who understandingly examines the subject, that Philadelphia has a decided advantage over New York in the struggle for the trade of the West. She had this advantage at the earliest period of our history, when the trade was carried on by pack horses—she had it when common roads were substituted for horse paths, and she will continue to have it when the best possible modes of conveyance are introduced. This is obvious, upon the strictest mathematical principles. To two unequals add equals, and the products must be still unequal.

The long interruption of the navigation of the lower end of Lake Erie is, of itself, a decisive disadvantage to the city which must depend upon it for its trade. The last few weeks, however, show that the obstruction of the navigation is not the only inconvenience which New York labors under, in her dependence upon the lake as a means of transportation.—The dangers of the navigation of that stormy inland sea, will also create heavy charges upon all transportation by that rout. We publish, to day, an article headed "More Lake Disasters," which originally appeared in the Conneaut Gazette, in which the loss, on that lake, in fifteen days (up to Sunday, the 13th, when the Utica was wrecked) is estimated at near $10,000. Subsequent to that time, the terrible gale of which we gave an account, yesterday, occurred. That account was, of course, but partial, being from Buffalo alone; and published there only two days after the gale—further accounts will, no doubt, add greatly to the amount of losses.

To avoid the hazards of this navigation, owners of goods will submit even to some inconvenience; but if they can avoid all that hazard, by a shorter and cheaper rout, who can doubt that they will prefer it?

It seems to be somewhat doubtful whether the stock, in the Mad River Rail Road, will be taken in New York. We strongly suspect that the capitalists, in that city, begin to have some misgivings that the Philadelphians are wide awake to their own interests, and are about to convert the improvements made in Ohio to the advantage of the city of brotherly love.—If the New Yorkers begin to understand this matter, we opine they will, hereafter, be a little more chary in their expenditures.

BENEDICT ARNOLD.—The following article is going the round of the newspapers, and seems to be received as an article of news. We recollect perfectly well to have seen this statement in the papers perhaps thirty years ago, and within one or two years of Arnold's death—he died in 1801.

"*Coincidence.*—Mr. Hawley has published a communication in the Advertiser, of Rochester, stating that, on the same day General Arnold died in England, the oak tree, under which Messrs. Van Wert and Williams captured major Andre, in Tarrytown, was struck with lightning and shivered to pieces."

Sweden and France have recognized the young Queen of Portugal.

The Queen of Portugal and the Duchess of Braganza arrived at Portsmouth on the 8th, and met with a most cordial reception. The streets were thronged with spectators. They accepted of an invitation of the King to visit Windsor, where the King and Queen entertained their Majesties and suite, the Marquis de Funchal, the Marquis de Rezende, and several other distinguished guests, upwards of 60 in number, at a splendid banquet in St. George's Hall.

Among the guests, were the Princess Augusta, and the Duchess of Gloucester, Viscount Palmerston, the officers of the household, &c. The scene of social enjoyment, says the Messenger, was prolonged to the advanced hour of 12 o'clock, while, in the mean time, the King recognizing in the Marquis de Funchal a functionary whom he had known many years before, took the opportunity of reminding him of various circumstances connected with their early acquaintance; treating him, not as a formal guest, but as a personage whom he honored and favored with his friendship.

WINDSOR, Sept. 13.—The Queen of Portugal and Duchess of Braganza leave the castle to morrow morning, at 10 o'clock, for Portsmouth. It was supposed that their visit would have been extended beyond Monday, but their anxiety to join Don Pedro at Lisbon has hastened their departure

The Soho steamer has been engaged for the conveyance of her Majesty; workmen are engaged night and day to fit the steamer for her Majesty's reception.

According to a letter from Bologna, the King of Naples has appointed a commission of 34 members to draw up a charter, which his Majesty intends to grant to the Neapolitans.

It now appears that the intended Conference of the Northern Potentates, is to be held at Friedland, and not at Troppan.

Private letters from Russia state that the cholera has again broken out in Russia, and particularly in the governments of Saratan and Woronesh, and at Orel, and other places in the neighborhood of Moscow.

This year, the south of Russia, instead of exporting corn, will be obliged to import grain from abroad for its own subsistence. The Russian government, in consequence, has thrown open the ports of the Black Sea, the Sea of Azoff, and of the Danube, for the importation of corn, duty free.

According to recent regulations in Russia, foreigners entering the country are compelled to expose all unsealed letters of recommendation they may have brought with them. Thus are delivered up to the Police the names of all such Russians as strangers are recommended to, and those of the foreigners with whom Russians are in correspondence.

Whilst the Madrid Gazette, of the 3d inst., publishes a bulletin announcing that the King is perfectly restored to health, private letters of the same date state, that although less suffering, Ferdinand is still confined to his room.

The Gazette de France has the following, dated Rome, Aug. 22:—"The Pope would not allow the Duchess of Berry to maintain her incognitia, but received her in state, with all the Sacred College."

The Paris papers state that the Royal Family of France were at Rouen, at the date of the last express, and had been visiting the manufactories in that city, where they were received with the usual acclamations. The French fleet, it is stated, sailed from Cherbourg harbor for Brest, after the departure of the King, there to await orders for its final destination. A letter from the frontiers of Poland, given in these papers, represents the Russian and Prussian authorities to be proceeding against the late insurgents, and those suspected of participating in the insurrection, with extreme rigor.

The Emperor of Russia has declared that he will not acknowledge any other Sovereign of Portugal but Don Miguel, and doubtless His Imperial Majesty has as much right to interfere in this question as the Courts of France or England. It remains to be seen in what manner he means to enforce his resolution. We suppose that he will formally propose it at the Congress of Kings in the North, which so much occupies the attention of the French politicians.—*Standard.*

The London Messenger, of Sunday, the 15th, says—It would appear from the Berlin Official Gazette of the 6th inst., that His Majesty the Emperor of Russia had reached Schwedt, on the Oder, the previous day, and that he had narrowly escaped shipwreck in attempting the passage from St. Petersburgh to Stettin, by steam boat. He had been tossed for three days in the Gulf of Finland, (from the 28th to the 31st ult.,) and had been at last obliged to put back to St. Petersburgh, whence he made the journey by land. In the interval of uncertainty which prevailed as to his fate, we find that some of the French liberal journals had actually given him a watery grave in the neighborhood of Dantzic, and seemed to think that his death, "by the visitations of God," would have some effect on the anticipated Congress and the destinies of Europe.

We have to record the loss of the steam packet from Amsterdam to Dunkirk, called La Bourse d'Amsterdam, off Flushing during the late storm. We have not heard whether the Passengers were saved or not, but understand that the vessel must be broken up—*French paper.*

The Emperor Don Pedro has been pleased to confer upon Mr. Hoppner the dignity of a Commander of the Portuguese order of the Tower and Sword.

The Handelsbled, of Amsterdam, of the 9th Sept. says that the negotiations in the Conference will soon be resumed—that they were broken off in consequence of the question of Luxemburg, in order to enable the king of Holland to apply to the Germanic Confederation for its consent to the cession of that part of the Luxemburg territory allotted to Belgium. Prussia and Austria have asked some information in regard to the territory in question, which it is hoped will enable the King to come to a decision that will satisfy the Conference, and lead to the solution so impatiently expected.

The Nuremburg Correspondent contains the following:—"Three of the Southern powers of Germany have received notice from the Germanic Diet to hold an army in readiness to pass over the frontier into Switzerland, in case its existing civil discords should become dangerous to the peace of the neighboring States."

Neufchatel has submitted to the Federal Diet, in consequence of the prompt and energetic measures adopted by the latter to bring that canton to obedience.

Extract of a letter of the 20th ult., from Madrid:—"A serious misunderstanding continues to prevail between M. Zea, and the Ambassadors of France and England; M. de Rayneval, for several days past, has not visited the Prime Minister. Preparations for his departure are making at his hotel, and he will leave this capital in the beginning of next month. Mr. Addington, the British Ambassador, had a private audience of the king last night, which lasted two hours. It is affirmed that the Representative of England delivered to Ferdinand a note from the English Government, relative to the marriage of Donna Maria with the Duke de Leuchtenberg, and the charter by which Portugal is to be governed. The note was not well received by the King, who required two days to consult with his ministers on the answer to be given to this communication. The marriage, however, is not yet certain, as the issue of the conflict between the two brothers of the House of Braganza is still doubtful.

According to a letter from Madrid, the cholera is not confined to Huelva, but has broken out at Seville. The news is said to have excited much alarm at the palace. A Board of Health was immediately convoked, and the king recommended to quit Madrid with his family, and retire to Saragossa or Barcelona.

MADRID, Sept. 2.—The state of the king's health, which engrosses public attention here, is decidedly less critical. The excessive heat of the weather had set in motion the bad humors with which his system abounds, but a change in the temperature has enabled his medical attendants to draw those humors downwards, and fix them in the legs. By these means he is unable to walk; but all danger has been averted, at least for the present; Louis XVIII, who was afflicted with the same disorder, lived a long time in a like state.

We have received the Paris papers and private letters from that city, of Thursday's date.

Letters from both Rome and Bologna state the prevalence of a report that Rome is to be occupied by the Austrian troops, in order to be in the proximity of the Kingdom of Naples, where serious troubles are expected to break out. Romania will be entirely occupied by the Austrians; and, according to the same accounts, that measure will be taken throughout Italy. The utmost precautions were taken by the authorities, and it would appear that serious fears of commotion are prevalent.

A letter from Ancona, of the 1st September, states that General Cobieres manifested similar fears, and that strong patrols paraded at night.—The report of a plot to murder the French garrison, although publicly circulated by the French officers, is represented as originating in the desire of the French to augment their garrison at Ancona.

From the Paris Messager des Chambres.

We have received, via Antwerp, the following—

"HAGUE, Sept. 7.

"Every thing breathes of war with the different ministries at this residence; orders are every where given to strengthen the fortifications, and an appearance of joy is observed at the Court, which is very extraordinary

"M. Omphal, and not the Prince of Orange, has taken his departure for Schwedt, where he will meet the Emperor of Russia."

"The object of the Emperor's voyage is to urge the King of Prussia, who has hitherto obstinately refused, to join in a war against England, France, and Belgium.

"What I write may be relied on; do not take it as a mere on dit."

There is some talk of sending General Guilleminot to Madrid, in the place of M. de Rayneval, who, in the event of such a proceeding, will go to Vienna; and M. de St. Aulaire will be entrusted with an important mission to the Emperor of Russia. We give the news without vouching for the facts.

It is understood that Prince Talleyrand will return to Paris, about the 15th or 20th of the present month. It is said that he considers it necessary to confer with his Sovereign on the new phase of European policy.

The Moniteur announces, officially, in the following terms, the recognition of the government of Donna Maria—

The government of the King, in consequence of the re-establishment of its political relations with the government of her Majesty, Queen Donna Maria, has officially recognized the Chevalier Daupias, as Charge d'Affaires of Portugal, at Paris. Some time ago the government of the King had sent to M. de Lurde credentials destined to accredit him as Charge d'Affaires of France to the Court of Lisbon.

LATER STILL FROM FRANCE AND PORTUGAL.

By the brig Mary Jane, captain M'Kinstry, from Rochelle, we have received Paris papers of the 17th Sept. and Bordeaux of the 18th.

We learn from these papers that Marshal Bourmont had actually attacked Lisbon, and had been repulsed. The intelligence was received by a courier despatched by the British Ambassador at Madrid. Reports also prevailed of a subsequent attack, in which the Miguelites had been successful; but these evidently were not to be depended upon.

The King of France had returned to Paris from his tour in Normandy.

PARIS, Sept. 15.—Yesterday we received news from Portugal by Express. The troops of Don Miguel, after reconnoitering Lisbon on the 4th, made a general attack on that city on the 5th.—They have been repulsed. The two armies on the 6th and 7th, preserved their respective positions; another battle was expected.

PARIS, Sept. 15.—Yesterday the King, Queen, and Madame Adelaide, arrived at the Tuilleries at three quarters past one o'clock.

The American ship Delaware of eighty guns, which saild from New York on the 11th of the last month, arrived on the evening of the 12th in Cherbourg Roads. This vessel has on board Mr. Livingston, Ambassador of the United States to France.

PARIS, 14th Sept.—M. de Bourmont has failed in a first attack on Lisbon. He was making dispositions on the 7th for another attempt on the following days. It is fair to suppose that his chance of success has diminished at Lisbon, as well as at Oporto. All delay is favorable to the constitutional cause. The Miguelite general made immense efforts during his march on the capital, to organize something like an army. He prepared, as well as he could, provisions for his crowds of undisciplined or beaten soldiers; but in fifteen days a Portuguese cannot be made a well drilled soldier. After the check at Oporto, what M. de Bourmont had most to apprehend, was a first, even partial, defeat; and it cannot be doubted that a general battle without success, has caused discouragement and brought disorder in the Miguelite ranks, and destroyed, in one day, the order which the general had endeavored to introduce in the army. It is not here the question of a regular siege: it is of a battle on fortifications thrown up in haste. M. de Bourmont knew well enough the troops he commands, to take advantage of their first ardor and led them to the attack in the hope of carrying the city in the onset. But these troops once repulsed, they have to fight another battle with diminished hopes and courage.

BORDEAUX, 18th Sept.—The doubts which we expressed on the subject of the reported capture of Lisbon, on the 7th, have been justified by the event, according to our correspondence, and even according to some Paris Journals. Bourmont attacked the capital of Portugal on the 5th, and was repulsed with vigor. The 6th and 7th the two armies were in sight of each other, but did not fight; and if a new attack was attempted it could not have been before the 8th. Notwithstanding our wish that the cause of Don Pedro may triumph, because we believe it to be that of liberty, we cannot participate in the opinion expressed yesterday by another paper in this city, which emphatically pronounced that the Miguelites were completely destroyed.

The language of the bulletin issued by the Sentinelle de Bayonne, and which we have republished, is far from justifying the belief in a great or decisive victory; because that bulletin says that Villa Flor re-entered Lisbon immediately after the engagement. It is not thus an experienced general proceeds. He would avail himself of his first success, and pursue the remains of the enemys' battalions, without returning within the walls of the capital, and giving them time to rally and fight another battle in its vicinity.

Matters remain then before Lisbon nearly the same as they were, with this difference, however, that the check experienced by Bourmont on the 5th, as well as his non success before Oporto, cannot otherwise than materially discourage the besiegers, and give hope to the Constitutional troops. We believe then the cause of Donna Maria on the point of triumphing, though every thing is not yet gained; at any rate, the contest cannot last much longer.

Political Economy.—The Baron De Merogues has presented to the French Institute, in manuscript, a voluminous work under the title of "Researches on the Causes of the Riches and the Poverty of Nations." The following extracts are from this work. They are derived from his own observations:

"In 1826, the ratio of the poor to the population in the United States of America was 1 to 76.—This ratio is the mean of the following subdivisions:—In Pennsylvania, principally agricultural, 1 in 88; in Delaware, ditto, 1 in 78; in the State of New York, 1 in 74."

In Europe the following are the proportions in the various countries, from observations made in those countries:

"Portugal (1821,) principally agriculture,	1 in 98
Wurtemberg, (1818,) ditto,	1 in 63
France, (1826,) agricult. and commerce,	1 in 34
Venetian States, (1823,) commerce,	1 in 27
Great Britain, (1826,) manufactures and commerce,	1 in 13
Holland, (1826,) commerce,	1 in 10
Belgium, (1826,) manufactures and agriculture,	1 in 8"

The following interesting comparison shows the proportion of the depraved part of the population, between London and Paris, in 1830. with the development of industry:

"Population of London, within the liberties, 1,330,000; ditto Paris, without the banlieus, or within the walls, 574,338.

Individuals, without the means of existence,	London,	20,000
	Paris,	10,000
Women of the town,	London,	75,000
	Paris,	12,000
Pick pockets, thieves, smugglers, &c.,	London	15,000
	Paris,	9,000
Receivers of stolen goods,	London,	3,000
	Paris,	600
Beggars,	London,	16,000
	Paris,	9,000
Total,	London	229,000
	Paris,	40,000
From whence it follows that depravity is in	London,	170 in 1,000
	Paris,	52 in 1,000

The police arrested in London alone 72,824, or one inhabitant in 18."—*Amer. Sent.*

More Lake Disasters.—There is a report in circulation, and which is probably but too true, that, during the gale, on Sunday last, several vessels were wrecked in the vicinity of Erie. It is said that the schooners Detroit and Utica, of Detroit, have both floated ashore near Erie, without a person on board of either of them, one of which was right side up, with deck loading all on. A box, it is further said, floated ashore, containing $70, and a written statement, containing an account of the situation of the vessel, and what would probably be the fate of all on board, including eleven passengers. The sloop Hum Bird, of this Port, is also ashore near Erie; but we are happy to learn that all the persons on board were saved. The passengers on board the steam boat, Tuesday morning, state that they saw, between this and Erie, a schooner capsized, supposed to be the Morning Star, of this Port; but we are inclined to believe that it was not the Star, but the Detroit, or Utica. The steam boats New York and Ohio, are both, we understand, considerably injured. The injury sustained, by the vessels on lake Erie, within the last fifteen days, cannot be much short of $100,000.—*Conneaut Gaz.*

The Washington Globe, of 22d instant, remarks, in relation to the Alabama Question—

"The Governor of Alabama, in his argument, seems to proceed upon the principle asserted in the case of Georgia and the Cherokees. But they are entirely different. The dominion over the Cherokee lands in Georgia belongs to Georgia. In the Creek country in Alabama, the lands belong to the United States, and no white persons, whether officers or others, have any right to enter and hold possession of the territory belonging to the United States, but at the will of the Government of the United States."

We have read the correspondence between the Governor of Alabama and the Secretary of War, & believe that the general government is doing what is right and even obligatory. But Georgia was not less in the wrong than Alabama, and her maxims cover the case of the latter. Cherokee lands belonged—not to the state of Georgia, but to the Indians; and the "domination" which has been asserted is against treaties which are the supreme law of the land. President Jackson's concurrence with the Georgia usurpation will 'return to plague' him in all discussions of the kind.—*Nat. Gaz.*

Stealing from the Mails.—The Portland Jeffersonian says, it is ascertained that there have been more than a dozen cases since the first of April, of letters containing money being stolen from the mail east of this place. Verily it is high time there was a reform somewhere. The public will soon lose confidence in the security of the mails at this rate, and then what will the Post Office establishment be worth?—*Port. Cour.*

Turkey is said to have become a mere dependency of Russia, but it may be thought that her existence as a separate and a European power is likely to be prolonged by the new alliance.—*Nat. Gaz.*

A Cincinnati Jackson editor introduces an article in favor of Mr. Van Buren, thus—"The Man of the Kitchen Cabinet." This indeed implies power, but rumors prevail that Mr. Van Buren no longer enjoys that enviable distinction. Colonel R. M. Johnson is said to have been adopted in his place.—*Nat. Gaz.*

French Politeness.—On a new year's day, when Junot's, (the Duke of Abrantes,) servants waited on him with their congratulations to receive the customary presents, he conferred on each a gift; then turning to his steward, who had been in the habit of plundering him,—"As for you, Sir, I will make you a present of every thing you have robbed me of during the past year." The steward made a low bow and retired.

Girard Trust.—The Treasurer of the Girard Trust, reports the receipts of the Girard Trust, from interest, dividends, and loans on stock, for the quarter ending Sept. 30th, to be $64,858 44; from rents of real estate, for the same period, $15,018 32—and 10,000 for a certificate of stock. Total, $80,876 76. Expenditures—for incidental expenses $1,279 77—$12,100 59 for repairs, taxes, &c.—from which there appears an excess of receipts over expenditures of $76,496 43. There remains, of rent due for the last quarter, only $153 10. All the property is tenanted.—*Philadelphia Herald, Oct.* 23.

The Mighty Fallen!—It is true, as frequently intimated in late English papers, that Lord Brougham habitually indulges himself in drinking to excess? And is the same thing, or any thing like it, true of those master intellects which gave birth to Christobel and to Gertrude of Wyoming? If it be so, farewell, a long farewell to all their greatness. "Othello's occupation's gone."—*Bost. Merc. Jour.*

Public expectation is somewhat raised to see how the Vice President will "bear his faculties," this winter, as the presiding officer of the Senate. Meekly—meekly—no doubt. It will not *there*, at least, be *ego et rex meus.*

It is said that all the various government officers and departments in Washington heretofore doing their business at the Branch Bank of the United States, in that city, have been ordered to transfer their accounts elsewhere. The modest looking building used as the Banking House, standing as it does in sight of the Government House, must of itself be an eye sore. No orders have as yet, however, been given to have it removed!

Some disturbances have lately, it is said, been made among the clerks, &c. in the office of the Commissioner of the Public Lands. We do not know enough about particulars to enter into details. Perhaps, by this time, the storm has blown over.—*Alex. Gaz.*

The Reasons why a Ship is called She.

Because man knows not the expense till he gets them.
Because they are useless without employment.
Because they look best when well rigged.
Because their value depends on their age.
Because they are upright when in stays.
Because they bring news from abroad.
Because they wear caps and bonnets.
Because they are often abandoned.
Because they are often painted.—*Bost. Ev. Post.*

CHARADE.

The following, from one of the English annuals, gives the prettiest description of a *night cap* that we remember to have seen.

"My First was dark o'er earth and air,
As dark as she could be!
The stars that gemmed her ebon hair
Were only two or three:
King Cole saw twice as many there
As you or I could see.

"Away King Cole," mine hostess said,
"Flaggon and flask are dry;
Your nag is neighing in the shed,
For he knows a storm is nigh."
She set my Second on his head,
And she set it all awry.

He stood upright upon his legs—
Long life to good King Cole!
With wine and cinnamon, ale and eggs,
He filled a silver bowl;
He drained the draught to the very dregs,
And he called that draught my Whole."

Extracts from the Liverpool Prices Current, for the week ending September 13th, 1833.

The sugar market remains in a very dull state, and the sales are continued to 150 hhds. B. P., for which rather lower prices were generally accepted; in East India, Mauritius or foreign, there are no sales worthy of notice.—About 640 puns. Molasses have been disposed of at the following rates, viz. 260 puns. of Trinidad at 26s 6d; 40 of Demarara, (imported from Halifax) 28s per cwt. and 346 of Antigua, the price of which has not been disclosed. Nothing of interest done in either Carolina or East India Rice. Coffee—There has been very little enquiry for Plantation throughout the week, and the sales merely comprize small parcels of Jamaica, Demerara, and Trinidad, at about previous rates. Of foreign, 270 bags ordinary Sumatra were sold at 53s per cwt. For 500 bags Pimento offered by auction, there were no buyers.

COTTON.—The market has been very inactive throughout the week, and the demand on a most limited scale—prices in consequence have been very irregular, and the quotations are merely nominal. Sellers have submitted to a reduction of 1-4d to 1-2d and in some instances 5-8 per lb. 1500 bags of American have been taken on speculation; 3000 Surat are advertised for sale on Friday, the 20th inst. Sales of the week 4390 bales, viz. 80 Sea Island, 15 1-2 a 30d; Stained, 10 a 14; 1650 bowed Georgia, 9 3-8 a 12; 1110 Mobile, Alabama and Tennessee, 9 a 12; 570 New Orleans, 9 3-4 a 14; 390 Pernambuco and Ceara, 12 a 13 3-4; Bahia and Maccio, 11 a 12 1-4; 250 Maranham and Sawginned do 11 1-2 a 13; Demarara, 11 a 13 1-2; Egyptian, 13 a 14; Barbadoes, 10 1-4 a 11; Bahama, 10 1-4 a 14; common West India, &c. 9 1-2 a 12 3-4; Smyrna, 10 1-4 a 10 1-2; 240 Madras and Surat, 7 a 8 3-4. Imports, 10,558. Stock on hand, 210,770 bales.

There has been more enquiry for Indigo, but there is very little offering; the few sales effected have been at very full prices.

DYE WOODS—On Monday last, 400 tons of Lima Nicaragua Wood were brought to the hammer, and 350 tons sold at £20 15s to £21 15s for common, and at £24 for selected; 50 tons Campeachy Logwood brought £8 5s to £8 7s 6d; 70 of Jamaica £6 5s; 30 tons of Cuba Fustic £10 10s to £11; 200 of Brazil common, £5 10 and Ceara £7 12s 6d to £8; 150 of Savanilla £7 5s to £7 15s, and a few tons of Camwood £19 per ton. The arrivals of Turpentine have been large this week, and market is consequently dull, but prices have not yet declined; 2800 barrels have found buyers at 12s to 12s 2d, and a small quantity of inferior at a relatively lower price. No sales are reported in Tar, and prices continue firm at last week's quotations. Montreal Pot Ashes are in very limited demand, but previous prices are fully supported; 60 to 70 barrels only have been sold at 24s for new, and 23s for old Ashes; of Montreal Pearl Ashes 70 to 80 barrels have been disposed of at 26s to 27s, including the brands of 1832 and 1833. States' Ashes are saleable for export, but there are no State's Pot Ashes in the market.

There is a good demand for Hides, and the sales, which were chiefly at auction, have been at rather higher prices, viz:—8700 dry Rio Grande Cow and Ox at 7 1-2 to 8 3-8d; 1180 do wormed at 6 1-2 to 7 3-8d; 760 dry salted Brazil at 6 1-8 to 6 1-2d; 3600 salted Buenos Ayres at 5 5-8 to 5 3-4d; 420 salted West India at 4 7-8 to 5 1-2d; 200 New York salted at 4 3-8 per lb.; 6100 dry Rio Grande Horse at 9s 4d to 9s 7d; 2850 do wormed at 8s 1d to 8s 2d each, and 160 dry Holstein Calf Skins at 9 3-4d per lb. The sales of Tobacco amount to about 210 hhds., of which 140 hhds. were low Kentucky Leaf for exportation, the remainder consisted of 15 hhds. of Virginia Leaf, 40 of stemmed, and 17 of Kentucky stemmed to the home trade. The Grain market has been dull during the week, and Wheat has declined 4d to 6d per 70 lb., particularly the soft and middling qualities of new Irish Oats fully support the last quotations, Wheat in bond is quite neglected, and sour Flour in bond continues dull, and is again rather lower.

The question to be discussed, on Tuesday evening next, the 29th instant, is—Whether has War or Intemperance been the more destructive to mankind?

The Young Men of the city, who feel interested, are respectfully invited to attend.—The meeting will be held in the Society's room, corner of Market and 4th streets, at half past 6 o'clock.

Paper Mill for Sale.

THE Extensive Establishment, known as the Soft Spring Paper Mill, now in the occupancy of C. Lukens & Co. is offered for sale.—Its situation is both desirable and healthy, possessing local advantages superior to any mill in the west, with a spring of pure, soft water, yielding a superabundance for all purposes—propelled by an engine sufficiently powerful, and to which has recently been added an entire New Machine for the manufacture of paper. Its location is about two miles from the city, on the Eastern Turnpike. The subscribers have no hesitation in believing it offers inducements to purchasers highly advantageous.

The terms will be rendered satisfactory, and but a small portion of the purchase money required at the time of sale, with an extended credit for the residue, being determined to make an early disposal. It will be sold low. Application made personally, or by communication, to either of the subscribers, will be attended to.

PIANO FORTES.

MR. TAYLOR respectfully announces to the citizens of Pittsburgh, that he has just received an assortment of PIANO FORTES, from the celebrated manufactory of Robert Nunns, Clark, and Co. (late R. & W. Nunns,) of New York, which he offers to the public at a fair price, and liberal terms.

The instruments of this most extensive establishment have (for quality and volume of tone, and for materials and workmanship) received the decided approbation of the most distinguished professors of this country and Europe. The manufacturers therefore feel confident in resting their claims to public patronage upon the intrinsic merits of the Piano Fortes themselves.

FLUTES.

Also, a few of 'Taylor's approved' Flutes; these instruments are well worth the attention of the Amateures of the Flute.

☞ Ladies and Gentlemen are invited to call and examine the above instruments, at Cook and Schoyer's (late Sylvester's) store, corner of Wood and Third streets, where they will remain but a short time, Mr. Taylor's stay in this place being limited. Oct. 7, 1833.

TO ENGINEERS.

A CORRESPONDENT of the Subscribers, who resides in Tennessee, wishing to erect a Rolling Mill, at Louisville, Ky., Nashville, Tennessee, or some intermediate point, as may be deemed most advisable, is desirous of informing himself as to the cost of such an establishment, capable of rolling TWELVE TO FIFTEEN HUNDRED TONS OF IRON, of the various descriptions embraced in a general assortment.

As the location of the Mill is yet undetermined, a FULL PROPOSAL is not expected; we will, however, receive Estimates of the cost of the Engine and Machinery, and probable cost of the building; the Contractor to furnish ALL except the ground on which the building shall be erected. The mill to be delivered ready to go into operation. Such Estimates, expressing the terms of payment, and time required for the completion of the work, handed to the subscribers, on or before the 30th inst., shall be submitted at once, and it is presumed that the most favorable offer will result in a contract.

SIX EGYPTIAN MUMMIES

In the Diamond, next door to the office of The Pittsburgh Gazette.

THE features of some of these mummies are in perfect expression—the hair of the head preserved as if now living. For the direct purpose of giving visitors, of all descriptions, that wish to see the ancients themselves, and likewise the bodies that were embalmed not less than three thousand years ago, this collection was exhibited to a numerous concourse of visitors, in the city of Philadelphia, for the space of 3 months; and next in Baltimore, in the Museum, for five weeks, where contract was only made for two weeks, and continued for five weeks by request. The inhabitants of this city, it is hoped, will call, and patronize a collection worthy the attention of the curious.

The proprietor is authorized to use the names of the most eminent physicians and professors in the city of Philadelphia, and likewise that of Baltimore.

SALE OF REAL ESTATE.

THE Subscribers, Trustees of the New Philadelphia Society, at Phillipsburgh, Beaver county, Pennsylvania, offer for sale the following property, to wit:

1	tract of land	containing	330 acres
1	do	do	330
1	do	do	67
1	do	do	7
1	do	do	40
	other lots, containing about		6

The above lands lie in one body, fronting about two miles upon the Ohio river—immediately opposite the mouth of Big Beaver creek, and the Beaver Division of the Pennsylvania Canal. The land is rich, and a part of it under a high state of cultivation—its location pleasant and healthy. The improvements upon the same are valuable, including the town of Phillipsburgh, late the residence of Count Leon, and the New Philadelphia Society. The town contains about 40 Dwelling Houses, now in order; some of them brick houses and two stories high. A large and spacious Hotel, a Store house, Church, a number of Shops, for mechanics, Stables, Barns, and other out houses. Also, two large new buildings, lately erected, but not yet finished, one of brick, the other of frame (the latter suitable for a manufactory) a very extensive public garden, and also fruit trees of various kinds. The property has also attached to it the right of a ferry across the Ohio, which is valuable, and becoming more so every day.

The above property is situated in the midst of a wealthy and prosperous country, distant about 28 miles below Pittsburgh, and one mile from Beaver, the seat of justice for Beaver county---and having a view for many miles up and down the Ohio, and of the country to a great distance around.

The subscribers are confident in saying that few situations could be found, presenting greater facilities to the farmer, mechanic, the manufacturer, and others--- a soil rich and productive---the neighborhood abounding in coal---well timbered and watered, and, by means of the Pennsylvania Canal, and steamboat navigation, a cheap and ready conveyance to market, and a communication with other places is ensured.

The property is susceptible of divisions into farms, or for the location of new towns, or for the extension of the present one.

Should it not be sold on or before the first day of January next, it will then be offered at public sale, upon the premises, to the highest and best bidder.

It will be sold in a body, or in parcels, to suit purchasers.

Terms of sale will be reasonable.

Information can be had by enquiring of the subscribers, two of whom live in the neighborhood, and one on the premises.

PERIODICALS.

AMERICAN RAILROAD JOURNAL, and Advocate of Internal Improvements, which is designed as a repository of the accounts of the rise and progress of numerous works of Internal Improvement, in the United States particularly, and in other parts of the world generally. The work is published weekly, and forms a large octavo volume each year, of 832 pages of 3 columns each, for $3 per annum, in advance.

New York Farmer, and American Gardener's Magazine. This work is designed for the agriculturist, and will be found to contain much, both interesting and profitable, to those who cultivate the soil as a business, or merely a garden for amusement. Published in monthly parts of 32 large octavo pages, with three columns each, at $3 per annum, in advance.

Mechanics' Magazine, and Register of Improvements and Inventions. To the Mechanics of the United States---In this populous and enlightened country, almost every description of persons can obtain knowledge and amusement connected with their peculiar pursuits, through the medium of the Journal or Magazine, especially devoted to their interests. The Theologian, the Farmer, the Philosopher, the Sportsman, and even the Plough Boy, has each his Journal, where he can find a record of the passing events of the day, connected with his peculiar avocations and recreations. Hitherto, the Mechanics (who form a large and most important portion of the community) have had no Journal, to which they could turn, with the certainty of finding that information they desire, no periodical of which they could say: 'This is ours, and for us.' In the hope that the attempt to supply such a want at a price so reasonable as to be within the reach of all, will meet with your active support, the subscriber proposes to publish, on the first day of each month, a Mechanics' Magazine. It will contain a well digested selection of the most useful and interesting articles in the London Mechanics' Magazine, London Register of Arts and Sciences, Repertory of Inventions, Library of Useful Knowledge, Journal of the Franklin Institute, and other works, connected with the arts and manufactures, published in this country and in Europe, accompanied with numerous and well executed Engravings. Its pages will be open for the communications of all, and especially for those of the practical artisan, to whose interest it will be particularly devoted. The Mechanics' Magazine will contain, also, a due portion of the occurrences of the month, Scientific and Literary Reviews of Books, Anecdotes, Economical Receipts, Reports of the state of Mechanics' Institutions, and other Scientific Societies in this state and other countries. To be published monthly. Each succeeding number will contain 64 pages, handsomely printed, and stitched in a neat cover. Six numbers will form a volume, for which an index and title page will be supplied, and also a Portrait of some distinguished Mechanic, as a Frontispiece. Terms, $3 per annum, in advance.

SATIN BEAVER HAT MANUFACTORY,

NO. 6 ST. CLAIR STREET,
PITTSBURGH.

WILSON & SMITH, from N. York,

RESPECTFULLY inform the citizens of Pittsburgh and the neighboring towns, that they have commenced the manufacture of the above beautiful and elegant article, so much admired and worn throughout Europe, and the principal cities in the United States.

W. & S. beg leave to observe, that, after various experiments, they have at last succeeded in bringing this Hat to the highest state of perfection, and they can assert, with confidence, that in point of color, lightness, elasticity, durability, and general beauty of appearance, they cannot be surpassed by the most expensive Hat that is made. Gentlemen are invited to call and examine them, and judge for themselves.

Wholesale Dealers supplied at the same prices as in the New York markets.

DOCTOR ROBERT'S

☞ *WELCH MEDICAMENTUM.* ☜

FOR the cure of Dyspepsia, Liver Complaints Jaundice, Cholic, Fever and Ague, Dysentery, Headach, Loss of Appetite, Flatulence, Hypochondria, Hysterics, Dropsical Complaints, and Heartburn, It also prevents all Bilious disorders, and removes habitual Costiveness, Asthma, Strangury, Gravel, Rheumatism, Gout, and Impurities of the Blood.

A person who uses this Medicamentum will not require the use of the lancet, or any means of the healing art. It restores and revives the animal spirits, invigorates the system, removes nervous tremors, obtunds rheumatic and anthritic pains, and prevents their return. It cleanses the stomach of all morbid humors, which cause indigestion, acidities, headach, and lowness of spirits; cures all bilious disorders, and all cholics of the stomach and bowels, almost immediately; inspires cheerfulness; gives comfort to the dropsical; takes away palpitation of the heart; gives circulation to the blood; restores bloom to the sallow or sickly cheek, and plumpness to the meagre habit; purges without pain, and banishes all cause of fever of every kind. It acts on the stomach, that great reservoir of the human system, a diseased state of which causes all diseases. No alteration in the usual habits of life is required, but the abstaining from distilled ardent spirits.

CERTIFICATE,

From Rev. Derick Lansing, D. D., Pastor of the Second Presbyterian Church in Utica.

UTICA, Jan. 6, 1830.

To Dr. Hitchcock.—Dear Sir: I have always been one of the number of those who have placed little confidence in *nostrums* or *specifics,* and for this reason, although I saw your advertisement of the Welch Medicamentum, I could not bring my mind to consent to use it. My sufferings, from indigestion, during the past summer, were so severe, as materially to affect my comfort, and my capacity for usefulness. I have reason to thank you, sir, that, on hearing of the state of my health, you kindly sent me your Medicamentum. I have taken it faithfully, and with entire success. I have not been visited with one of those turns of distress, which before were weekly periodical, since I began to take your valuable medicine. Could I receive the same relief which I have hitherto experienced, on condition of taking it for life, I should cheerfully comply with such condition. Your's, very truly, D. C. LANSING.

ANTI-DYSPEPTIC ELIXER.

ONE of the most agreeable and efficacious Medicines ever discovered for the permanent cure of those chronic states of derangement of the stomach, constituting that miserable disease called Dyspepsia.

The basis of this Elixer is vegetables, and perfectly innocent in its operation; it destroys that sour state of the stomach, the instant it is taken, and stops the morbid secretion, by giving strength to the muscular fibre of that important organ, by which means the peristaltic motion of the intestines is increased, and the costiveness obviated; a new action is given to the system, which puts an end to a train of distressing nervous sensations.

Another form of the disease in which the Elixer is admirably calculated to relieve, is the decline of fever, where the stomach will not bear the ordinary strengthening medicines indicated in such cases, it has the surprising effect of giving vigor, and restoring the natural secretions of the body, without increasing the febrile state. Not the least danger is to be apprehended from exposure to cold, while under the use of this medicine, nor will it interrupt necessary employment of the patient a single hour.

☞ A number of cases of cures performed by the Anti-Dyspeptic Elixer in the vicinity of Pittsburgh can be given.

GEO. W. CARPENTER'S
COMPOUND SYRUP OF LIVERWORT,

A SAFE and Valuable Medicine for Coughs, Spitting of Blood, Consumption, and Liver Complaints.

Most of the medicines made use of for the above diseases are of a stimulating nature, composed generally of Resins and Balsams, in alcoholic solutions, which, although sometimes giving temporary relief, in almost every instance where they are freely used, aggravate the disease, and reduce the strength of the patient.

This article possesses superior advantages over these preparations, its action being of a tonic, invigorating and strengthening nature, thus overcoming the disease by promoting expectoration, and gradually increasing the strength of the patient, and thus, without being attended with any unpleasant effects: it also agrees with the stomach, in a cases, and is a pleasant medicine to take.

PATENT PLANING MACHINE.—The right to use this valuable machine, invented and patented by William Woodworth, and known as Woodworth's Patent Planing Machine, may be obtained on application to the subscriber for the counties of Allegheny, Butler, Beaver, Washington, Green, Fayette, Somerset, Cambria, Indiana, Jefferson, Clearfield, M'Kean, Warren, Venango, Mercer, Crawford, and Erie, in the State of Pennsylvania. That part of Maryland lying west of the Blue Ridge; all that part of Virginia lying west of the Blue Ridge, except the county of Ohio. The whole of the state of Ohio except the counties of Hamilton, Butler, and Montgomery. The whole of the state of Kentucky, except the counties of Jefferson, Boone, Oldham, Gallatin, and Campbell. The whole of Indiana, except the counties of Floyd, Clark, Jefferson, Dearborn, and Switzerland. The whole of the state of Illinois, and the territory of Michigan. Rights to use the machine in that part of the United States, named above, will be sold by the single county or in larger districts. As it is presumed that no one will purchase without seeing the machine at work, a description of it is deemed unnecessary. Should any person, however, wish to purchase, and find it inconvenient to visit the places where it is in operation, a machine will be furnished, warranted to plane, tongue and groove, and bring to an exact width and thickness, a white pine board of 12 feet long, and of any width from 1 to 14 inches, in one minute and ten seconds, or an oak board of the same dimensions in 2 minutes and 10 seconds. Machines may be seen at work in the cities of New Orleans, Washington, Philadelphia, New York, Boston, and others at the south and east, at Wheeling, Virginia, and at the saw mill of Messrs. Irwin & Herron, in this city.

Persons desiring to purchase will have the certificates of scientific and practical men who have seen it at work, in the different places in which it has been put up, forwarded to them. They give their opinion as to the great value of the invention, state the time they have seen boards dressed by this machine, and describe the quality of the work as compared with that performed by hand labor.

VALUABLE PROPERTY FOR SALE.

THE Subscriber offers for sale the farm on which he lives, in Washington county, on Pigeon creek, one mile south of Williamsport, on the Monongahela river, to which there is a perfectly level road. This farm contains near 400 acres, the greater part of which is first rate land. There is on the premises a Brick Dwelling House, a Merchant mill, in good repair, a new saw mill, a stone still house, 35 by 40 feet; a salt works is also in operation, and worked to advantage; about 150 acres of land cleared and under good fence. There is on the premises three small tenements for the accommodation of families. This tract is well timbered, and abounds with stone coal and springs of water, both of the best quality.

To a person wishing to embark in a manufacturing business, and possessing capital, this would be a very desirable situation, having the advantage of both water power from Pigeon creek, and banks of the very best coal near to the works, and easy of access, and its vicinity to so navigable a river where articles of any kind are so cheaply transported to Pittsburgh.

For further particulars, apply to James P. Stuart, Merchant, Wood street, Pittsburgh, or to the subscriber on the premises.

TRAVELLERS.

THE LINE OF STAGES between Chambersburgh and Baltimore, on the Somerset and Mountpleasant route, has been doubled, and now runs DAILY, (Mondays excepted,) leaving Chambersburgh *at day-light* in the morning, and arriving in Baltimore, early the same evening.

Passengers reach Philadelphia, in this way, the second afternoon, from Chambersburgh, without the loss of any rest; taking the splendid STEAM BOAT LINES, which set out at 6 o'clock in the morning, [via CHESAPEAKE AND DELAWARE CANAL, a work well worth the trip to see.]

REESIDE, Owner.

In all cases where the passengers desire to reach Baltimore in time for the 5 o'clock steam-boat to Philadelphia, they can do so by leaving Chambersburgh at one o'clock in the morning, or immediately after the arrival of the Western Mail Stage. In this way, they arrive in Philadelphia, by eight o'clock the *second morning,* from Chambersburgh.

☞ When a load offers, the stage will run on Mondays. April 23, 1830.—tf.

TYPE FOUNDRY.

HAVING purchased of Mr. Richard Ronaldson, his long established and very extensive Type Foundry, the subscribers have formed a co-partnership for the purpose of continuing said business, and for the convenience of their friends and patrons, have removed their establishment to a more central part of the city. As it is their intention to keep on hand a good assortment of the best type, and to make such additions and improvements as the taste of the trade and the wants of the country require, they flatter themselves that this establishment will merit a large share of patronage. They have now several founts on hand, which can be furnished at a few hours' notice, and are prepared to make founts of all weights and sizes, from Pearl to 22 lines Pica, including a variety of Ornamental Letter. Their assortment of Cuts, Dashes, Brass Rule, and other Ornaments, will be found to be very extensive, of which specimens will be forwarded to Printers as soon as they can be prepared.

Printing Presses of every description, Printing Ink of the most approved qualities, Composing Sticks, Brass and Common Galleys, Chases, Imposing Stones, Cases, Paper and Press Boards, Standing Presses, Furniture, together with a complete assortment of all articles used in a Printing Office, will be kept constantly on hand.

Small founts, suitable for Book Binders, in great variety, may be had when called for.
